## NOTICE TO PLANTERS

Nowhere can fruit be grown to such perfection, as in our own Northwest, and in the markets where this fact is known, it commands the highest of prices and is creating an unlimited demand. New markets are continually opening up for our fruits and while there has been a seemingly surplus production in some lines—this condition was caused by “hiding our light under a bushel” so to speak, for people cannot buy what they do not know exists—we have really not had a surplus of anything. But we have not advertised what we have had to sell. However growers in all lines are now beginning to advertise and are organizing so as to cooperate along the selling end of the fruit business. Also, the Northwest is now being advertised as never before, not only in print, but by the thousands of tourists passing through. Each one of them is a living advertisement, many of whom are coming back, with the purpose in view of buying homes and raising fruit.

Those who wish to sell their real estate, having the foresight to start a good commercial orchard on same, will surely reap their reward not only by finding an easier and quicker sale but will get paid many times over for their efforts in the price received. Even should you not care to sell, your orchard will be a real investment, bringing in money when other crops are proving unprofitable. Diversify your crops by having some fruit, also, to market.

## Special Planters' List.

We have a fine lot of the following Commercial Varieties to offer planters of Commercial Orchards. Prices are subject to 50 at 100 rates, 250 at 500 rates, 750 at 1000 rates, except when otherwise noted.

3 ft., "	30.00	"	100;	125.00	"	500;	200.00	"	1000

## Black Walnut

We have a fine stock of Black Walnut 1 to 2 feet high, many planters are using to start their French Varieties on. (Don't plant large Walnut trees, the small ones transplant better).

We offer these at \$20.00 per 100; \$175.00 per 1000; 500 at 1000 rates.

By planting these where you want your orchard to stand and having them grafted where they stand, your cost will be cut in half, and you will also have a better orchard, for your root system will be fully established and your trees growing strong from the time they are grafted.

Frankquette Walnut, grafted on Black, 4 to 6 ft., \$135.00 per 100, \$1250.00 per 1000.

## Filberts

Barcelona, DuChilli, White Avalon, 2 to 3 foot, \$65.00 per 100, \$600.00 per 1000, 500 at 1000 rates.

Above prices are made with the understanding that stock is unsold when order arrives, and that we deliver to transportation company, Tangent, or at our Nursery. All packing at our expense.

## General Price List for Family Orchard

Apple, 1 yr. olds	4 feet and up,	40c each;	\$3.50 for 10
